

PSYCHOLOGY

FOR YOUR FUTURE CAREER IN PSYCHOLOGY

Do you want to better understand human behavior?

Begin your future in psychology by earning your bachelor's degree.

The **Psychology major** is well-suited for those interested in research or doctoral work. We'll prepare you for advanced degrees such as our School Psychology master's program or Psychology Doctorate Program.

Pick a specialized track in clinical, school, forensic, industrial organizational psychology, or research. You'll have a wide variety of internship opportunities to choose from. Our program uniquely integrates Christian faith throughout your studies.

WHY ROBERTS?

Advance your career with opportunities to continue with a master's degree in School Psychology, Social Work, or a doctoral degree in Clinical/School Psychology.

It's possible to **complete your Psychology B.A.** in just 3 years!

In your graduate studies, **get real-world experience** in our on-campus Westside Psychological Services

Prepare you for your future career through an internship and a dedicated career development class.

PSYCHOLOGY, B.A.

The B.A. Psychology degree program provides you with a broad background in Psychology. This program provides the flexibility to take on a double major or to transfer credits from another institution.

- Gain exposure to conducting basic psychological research
- Focus on your area of interest, such as counseling or forensic psychology
- Graduate ready to immediately start your career or graduate studies

PSYCHOLOGY, B.S.

The B.S. Psychology degree program includes all of the courses in the B.A. and expands your studies to prepare you for doctoral education.

- Conduct research through an advanced practicum
- Engage in a psychology curriculum with a greater depth and breadth than the B.A.
- Develop your leadership skills and find your community

STORIES LEADING THE WAY

Jessica Savage '23 (Psychology) loved Roberts so much that after graduating with her Psychology degree, she came back and enrolled in our PsyD program.

She says, "My psychology professors left such a lasting impact on me. Having the opportunity to be mentored and taught by them has helped me uncover my passions by hearing from their experience. I feel much more prepared to enter the workforce as well because of all of the people that have poured into me at Roberts.

I completed my internship at Brookside Elementary School in Greece and had such a positive experience. I was able to observe all of the different stages of development from each age group that I had learned about in my psychology classes. From my internship prep and seminar classes at Roberts, I felt very prepared to enter this position. I knew how to conduct myself professionally, set goals to grow as much as possible, and embrace my strengths."
